EDUCATION

CUNY - College of Staten Island | B.S. Computer Science, Minor: Mathematics
Relevant Coursework: Database Systems, Data Science, Analysis of Algorithms

May 2027

SKILLS

Languages: Python, SQL, C++ | **Data Analysis:** Pandas, Excel, Power BI

Data & Tools: MySQL, Snowflake, dbt, Git, GitHub, Visual Studio

Certifications: Google Data Analytics Professional Coursera, 2025, Code path Technical Interview Prep 2025

Spoken Languages: Arabic

INTERNSHIP EXPERIENCE

Data Analyst Intern | Bokksu

Jan 2026

- Analyzed customer data in Snowflake using SQL to support customer-experience insights and data-driven analysis.
- Built dbt models to clean and standardize analytics data for downstream use.
- Collaborated on analytics workflows using Git and GitHub.

TECHNICAL PROJECTS

Housing Market Intelligence Platform | Python, Pandas, APIs, MySQL, Power BI

2026

- Built four-source Python ETL pipelines integrating Census, FRED, Redfin, and Zillow data across 375 U.S. metropolitan markets.
- Standardized incompatible geographic identifiers with a reusable bridge and validated more than 94,000 housing and rent records for missing IDs and duplicate market-months.
- Modeled analysis-ready data in MySQL and created 10 analytical SQL views powering a seven-page Power BI dashboard on affordability, rent versus mortgage costs, and market conditions.

Data Salary Intelligence Analysis | Python, Pandas, MySQL, Power BI, GitHub

2026

- Cleaned, standardized, and combined three salary datasets into a 51,939-record analytical dataset using Python and Pandas.
- Built MySQL queries and reusable SQL views to analyze salary by experience level, company size, location, and work setting.
- Developed a Power BI dashboard to communicate salary and employment patterns across data careers and documented the end-to-end workflow on GitHub.

WORK EXPERIENCE

Starbucks at Target | Barista | Staten Island, NY *Jun 2023 – Present*

- Manage up to 20 simultaneous orders in a fast-paced environment while maintaining accuracy
- Collaborate with team members to prioritize orders, resolve issues, and maintain efficient workflow during high-volume periods.
- Quickly learned and adapted to a new POS system, achieving 98% transaction accuracy within two weeks.

Dunkin Donuts | Crew Member | Staten Island, NY *Apr 2021 – Jun 2023*

- Collaborated with team members to resolve customer and operational issues while maintaining efficient daily operations.
- Monitored inventory and communicated supply needs to support smooth workflow and prevent shortages.
- Trained new team members in systems, procedures, and daily operations, helping them integrate effectively into the team.
